addition, Jennie's bachelor's degree in psychology assists her in understanding the emotional issues that influence her clients.

Jennie has created a unique Team of Realtors and associates that work exclusively for her. She has two Buyer's Specialists that focus solely on providing an individualized service to find buyers a home in this seller's market. These Buyer's Specialists, Toni Motte and Jan Hurren, are knowledgeable about what it takes to get an offer accepted and have an incredible record of obtaining properties for their buyers.

Jennie exclusively works with sellers, as she loves analyzing how to position the property, from a pricing standpoint to get a premium price and how to market to the ideal target group of buyers. She and her Team work with sellers and buyers from the San Fernando Valley thru the San Gabriel Valley.

swamp-rock sounds.

ABC, CBS, NBC, Fox, UPN and the WB -- the six biggest broadcast networks -- aired it along with several cable networks. Viewers in nearly 100 countries were able to tune in.

Contributions were being solicited for the American Red Cross or the Salvation Army.

It's the most high-profile of several such televised benefits. BET was also appealing for help today for victims of a tragedy that struck the black community hard, and MTV planned its own concert for Saturday.

BET telethon to express support and was asked by co-host Steve Harvey what his administration would have done differently if it were in power during the hurricane. Clinton refrained from criticizing Bush, but talked about the importance he placed on the Federal Emergency Management Agency.

"We always thought faster was better than slower," Clinton said.

NBC stations televised an appeal last week, marked by rapper Kanye West's off-script comment that "George Bush doesn't care about black people."

including West, who sang "Jesus Walks" with a gospel choir. West's microphone wasn't working during the first few lines of his song, though, in what appeared to be a technical glitch.

Do you wonder how celebrities look so fabulous year after year?

When they deny having plastic surgery, they just might be telling the truth! Instead of visiting the surgeon, they are probably using magic—Facial

Magic!

When you look in the mirror are you happy with what you see? Are you seeing a youthful face with radiant skin and vitality? You can change your appearance in one session of Facial Magic. You can look years younger in about 4-6 weeks. It's more than miraculous: it's Facial Magic!

Facial Magic is a facial exercise system that's been the "secret weapon" of European women to turn back the clock for about 80 years. Now available in the US, it's not in 5 star spas but on DVD or VHS for use in the comfort of your own home. Facial Magic's Cynthia Rowland will teach you all

the exercises so that you can look years younger!

You may have explored plastic surgery options and come away unhappy with the risk of undergoing anesthesia and the price tag is more than just dollars and cents. Other options include drastic peels, laser and micro-dermabrasion, and require costly visits to medical professionals. The results often take weeks or months to see and there can be less than stellar results. Expensive skin-care provides little—if any—lifting, firming or contouring.

Skip the risk and the expense of these treatments. Use the Facial

Magic system to help your face regain its youthful appearance by performing simple exercises. Your body requires exercise to get into shape; it takes similar exercise to get your facial muscles into shape.

Facial Magic will give you virtually immediate results. With the first lesson, you will change the appearance of tired droopy eyes that make you look years older. Cynthia Rowland teaches you precise exercises to contour cheeks, banish under-eye bags, lift sagging jaw lines and lessen double chins. Skip the botox and erase the lines and furrows around the eyes and forehead. You will see—and feel results—after each session.

If you practice 5-6 times per week with attention to form, you will see your face transform into the "you" that you were years ago—in a matter of a few weeks.

Your skin will regain vitality thanks to the improved circulation in the muscles. Skin will have a better texture and color.
